

Initial Demonstration of Compliance with the Building Construction Standards/Energy Efficiency Requirements in Connecticut State Building Code

Project: _____ Location: _____

Owner: _____

Owner's Address: _____ Owner's Phone: _____

Instructions: If the project is exempt, complete Section 1 and sign in Section 3. If the project is not exempt, complete Section 2 and sign Section 3.

Section 1:

This project is not required to comply with Section 101.6 of the Connecticut Supplement to the 2006 International Energy Conservation Code or Section N1101.1.1.1 of the Connecticut Supplement to the 2003 International Residential Code because:

- Exemption issued by the State Building Inspector and the State Codes and Standards Committee based on analysis by Institute for Sustainable Energy
- Project cost is under \$5 million for new construction (effective January 1, 2009)
- Project cost is under \$2 million for alterations (effective January 1, 2010)
- Residential building containing four or fewer dwelling or sleeping units (effective January 1, 2009 for new construction, January 1, 2010 for alterations)

Section 2:

This Initial Demonstration of Compliance is submitted as a condition for permit issuance in accordance with Section 101.6 of the Connecticut Supplement to the 2006 International Energy Conservation Code or Section N1101.1.1.1 of the Connecticut Supplement to the 2003 International Residential Code. The following rating system is used for compliance.

- Designed in accordance with a minimum Silver rating of the Leadership in Energy and Environmental Design system established by the United States Green Building Council (LEED™)
- Designed in accordance with a minimum Two Green Globes rating of the Green Building Initiative
- Designed in accordance with Equivalent Standard (Identify): _____

A Final Demonstration Report of Compliance documenting the installation and process will be submitted prior to issuance of a Certificate of Use and Occupancy.
