

May 20, 2010 Event Details

The Connecticut Architecture Foundation annual fund raising event focuses this year on real-world design solutions for green living. We are offering a unique opportunity to learn about sustainable design by viewing this New England-style home built with cutting-edge systems and local products. Don't miss the chance to see sustainable design theory applied to real life.

Where: The home of Mary and George Keithan, 25 Stevens Road, Killingworth, CT

Option 1: 1:00 to 7:00 pm \$90
