

A chapter of the American Institute of Architects

Speaker's Bureau

AIA Connecticut is an informational resource to the public, media and government on architectural issues and those seeking architectural services. There is a Speakers Bureau comprised of AIA members who give presentations on architecture and related subjects to interested community groups and civic or municipal organizations throughout the state of Connecticut. These presentations further an understanding and appreciation of the role that architects play in shaping our environment.

If your group or organization is interested in hosting a presentation please contact our office at 203-865-2195.
