PRESENTATIONS

2021 CABE/CAPSS Convention, Success Through Inclusion: Maximizing In-District Special Education Program Potential

Amy Samuelson, AIA, LEED AP, an Associate Principal of SLAM (The S/L/A/M Collaborative), serves as the Management and Human Resources Leader on the firm's Studio Core Team. With more than 25 years of experience as a project architect and manager, her portfolio of work comprises notable public/independent/higher education projects. Highly regarded for exceptional team building skills, Amy manages complex projects, overseeing large teams from planning through design and construction.

Her transformative projects designed to achieve 21st Century learning environments include Nonnewaug High School and Ox Ridge Elementary School, currently under construction, and design of the Torrington Middle School/High School, a new 300,000 SF complex. SLAM is leading Sacred Heart University's initiative to create and transform a new campus quad, where Amy manages several residential facilities under construction, including the completed five-story Toussaint Hall, renovated from its previous state as a nursing facility into a state-of-the-art residence hall.

She earned a Bachelor of Architecture, Magna Cum Laude, from the Catholic University of America. Amy, who currently leads SLAM's AIA 2030 Commitment, is LEED accredited and holds a membership with the U.S. Green Building Council.

In 2019, she was named the Designer of the Year by the Associated General Contractors of Connecticut.
